

Student COVID-19 Testing Scenarios, Type of Test, and Test Codes (Updated)

Scenario	Type of Test	MCI Test Code	Name of Test
Close Contact Exposure (CCE)	Abbott ID NOW	Initial	
		900940	SARS-CoV-2 – Student Negative Close Contact Exposure (initial)
		900935	SARS-CoV-2 - Student Positive Asymptomatic Close Contact Exposure (initial)
		Retest	
		900938	SARS-CoV-2 - Student Negative CCE Retest
		900933	SARS-CoV-2 - Student Positive CCE Retest
Symptomatic	Antigen	900949	Antigen SARS-CoV-2 Student Positive Symptomatic
		900948	Antigen SARS-CoV-2 Student Negative Symptomatic
	Abbott ID NOW Use only if antigen is negative and student is symptomatic	900939	SARS-CoV-2 - Student Negative Symptomatic
		900934	SARS-CoV-2 - Student Positive Symptomatic
Isolation Day 5	Antigen	900920	Antigen SARS-CoV-2 - Student Negative Isolation Day 5
		900915	Antigen SARS-CoV-2 - Student Positive Isolation Day 5
Student Screening ¹	Antigen	900923	Antigen SARS-CoV-2 - Student Negative Routine Screening
		900918	Antigen SARS-CoV-2 - Student Positive Routine Screening
Day of Entry	Antigen	900919	Antigen SARS-CoV-2 - Student Negative Entry
		900914	Antigen SARS-CoV-2 – Student Positive Entry
Testing in community for non-residential student or student on leave	The type of test used must align with type of test used on center. ²	N/A	

¹ Weekly testing if required per Community Level for students who are not fully vaccinated.

² For example, if an Abbott ID Now test was used on center, an NAAT test must be used in the community.
